

Hints and Tips
for
Video shoots

Use Voice Commands

In Camera App

Select: Shoot methods

Enable: Voice commands

Pics, say: "Smile, Cheese, Shoot"

Videos, say: "Record Video"

Save Space

In Camera App

Video: set to HD instead of FHD

- **HD:** 720p image resolution (1,280 x 720 = approxy 1M total pixels)
- **Full HD:** 1080p image resolution (1,920 x 1,080 pixels = approx 2M pixels)
- **Ultra HD:** 4K image resolution (3,840 x 2,160 pixels – approx 8M pixels)

Transferring videos from a phone

Dropbox

In mobile Dropbox App

Settings

Camera Upload – turn ON

All pics/videos automatically added to
your Dropbox

Transferring videos from a phone

Send Anywhere

<https://Send-Anywhere.com>

Install on phone and computer

Transfers files or folders

Before you install ANYTHING

<https://www.virustotal.com/gui/home/upload>

Scan for viruses

MediaFire

(Storage alternative)

<https://www.mediafire.com/?ufq5kzk>
